

Safari Logistics- Opening Zimbabwe to the World

Safari Logistics is an initiative to promote cost effective travel around Zimbabwe. With both road and air access to some of the country's top wildlife areas, a safari in Zimbabwe has never been easier. Safari Logistics does daily seat rate charters to the most popular destinations in the country including Victoria Falls, Hwange National Park, Lake Kariba and Matusadona, and Mana Pools National Park.

Due to low numbers in travel to Zimbabwe over the last few years, guests looking to fly between local destinations, such as Victoria Falls to Mana Pools, would have to book and pay for a private air charter. This is a very expensive way to travel particularly if you are travelling as a couple or a group. With Safari Logistics, you can now simply book and pay for a seat on our guaranteed schedules that run daily departing from Victoria Falls and Harare. Safari Logistics services all lodges and camps, meaning that you don't have to stay at a specific place to utilize Safari Logistics Services. With many big airlines adding international routes to Victoria Falls, travel to and around Zimbabwe has never been easier.

Safari Logistics also has a VIP lounge in the domestic terminal of Victoria Falls Airport. With comfortable seating, free WIFI, air-conditioning, tea/coffee and a luggage storage facility, Safari Logistics passengers are completely catered for whilst waiting to board their flight.

Along with the seat rate charter service, Safari Logistics also has two luxury 6-seater mini vans for road transfers to Hwange, Kasane and Livingstone, as well as access to coasters to transfer groups of up to 44 pax. In addition, with offices located in Victoria Falls Town and at the Victoria Falls Airport, Safari Logistics are ideally situated to provide professional meet and greet services and assist with ground handling services for all activities within Victoria Falls.

Safari Logistics believes that marketing Zimbabwe as a destination will bring business for all Zimbabwe based service and accommodation providers whilst creating a workable solution for travellers and suppliers of tourism into the country.
